

CREATE THE PERFECT MATCH

with Scholarship Manager from Next Gen Web Solutions.

Scholarship Manager takes your scholarship operation to the next level. It helps you streamline scholarship applications, manage updates and automatically match qualified students to available scholarships. Create a single, simple process for your students—while increasing your staff's efficiency with Scholarship Manager from Next Gen Web Solutions.

With Scholarship Manager, your office will benefit from the following:

Feature	Benefit
Automatic student to scholarship matching	Match qualified students with available scholarships in minutes and eliminate manual processes that can take weeks to complete.
Add, edit or delete listings online in real-time	Maintain scholarship information in a database rather than a paper file so you and your students have access to the latest information instantly.
Administrators can choose which scholarships they wish to publicize	Students now have a convenient method to search for scholarships online, creating a positive experience with your office.
Streamline committee reviews	Save time and money—allow scholarship committee members to meet online to review and discuss applicants.
Quickly identify unawarded scholarships	Make full use of your scholarship dollars—you can instantly identify which scholarships have been awarded and those that are still outstanding.
Create real-time reports	Share information with donors regarding scholarship applicants and keep them in the loop about student interest and eligibility.

Your students will benefit from having a single online location to search for and apply for scholarships—allowing them access any place, any time.

To start maximizing your scholarship processes, call 1.904.332.9001 or visit www.NGWebSolutions.com for more information.
